

Help spread the word about recent changes to the ITIN program

This material has been developed by the IRS to support your efforts in encouraging taxpayers to renew their ITIN now if they plan to file a tax return in 2017.

You'll find useful content in several languages, including a fact sheet, a printable flyer and specialized products and links to other helpful resources. Also, Twitter images and messages in [English](#) and in [Spanish](#) are available to reach out to the community active in the social media platforms – check it out!

What Can We Help You Find?

- **Visit** the [ITIN](#) information page on IRS.gov and take a few minutes to understand the guidelines.
- **See** versions in [English](#) and [Spanish](#) of the [letter](#) sent to over 300,000 affected taxpayers.
- **Find** an [overview of ITIN outreach products](#) in several languages to help you in your efforts.
- **Review** a detailed breakdown of key communication messages and plain language explanation in our [ITIN Fact Sheet](#).
- **Grab** a brief, [ready to print flyer](#) to share with any stakeholder.
- **Use** our [full-page flyer](#) with more details and links to additional information.
- **Get** the current Form W-7, Application for IRS Individual Taxpayer Identification Number, and its instructions in [English](#) and in [Spanish](#).

ITIN Questions

Visit the [Frequently Asked Question](#) section of the ITIN page in IRS.gov to get answers on some common questions about the program changes.

ITIN Information in Several Languages

ITIN program products and information is available in:

- [English](#)
- [Spanish](#)
- [Chinese](#)
- [Russian](#)
- [Korean](#)
- [Vietnamese](#)

A few products have also been developed in [Haitian Creole](#).

Getting Involved

IRS Acceptance Agent Program -- To increase the availability of ITIN services nationwide, the IRS is now recruiting Certified Acceptance Agents year-round. Interested individuals, including community outreach partners and volunteers at tax preparation sites are encouraged to check out the [program requirements](#).
